

WARRANTY REINSTATEMENT PROGRAM

PowerSight Meter Warranty Reinstatement Program

We have a special program to reinstate the warranty if your PowerSight meter's warranty has expired.

Here's why taking advantage of this program is a good idea.

When your PowerSight is under a warranty you are eligible to receive feature enhancements for **free!** These upgrades are done by changing the firmware (software that resides inside your meter). See the attached price list below and you will notice that if your PowerSight is not under warranty a firmware upgrade is at least \$ 200.

Free re-calibration – a \$ 200 value.

With a warranty you can also take advantage of our annual re-calibration service at no extra charge – this service normally costs \$ 200 for calibrating PowerSight meters that are out of warranty. If we find that components need replacement during calibration we'll just take care of replacing them for you.

Warranty coverage = peace of mind.

And before we forget, should your PowerSight need a repair or battery replacement while under a warranty, then the good news is that you are covered.

To find out your firmware version:

For the PowerSight models PS3XXX and PS4XXX press the **Admin** button then **Yes** button on the keypad. For the PS2500 press the **Next** button and for the PS250 press the **Display** button.

PS250/3000 owners:

The feature set in your meter can only be upgraded by returning your meter to the factory. This is generally free if you are under warranty. However, for PS3000 meters with firmware versions before 2.90 there is an additional charge. Firmware upgrades enable you to take advantage of new and advanced features that have been added over the years. With all the enhancements you'll benefit from you'll see it's like getting a whole new meter!

Upgrade enhancements are listed here at:

<http://www.powersight.com/uploads/files/Benefits%20of%20Extending%20Your%20Warranty%20for%20a%20PS250,%20PS3000.pdf>

PS4000/PS4500 owners:

When we issue new firmware for the you will be able to download the latest versions from our web site at: <http://www.powersight.com/downloads/index.cfm?list=Firmware>

WARRANTY REINSTATEMENT PROGRAM

Get the Most out of New Features in PSM

The latest version of PowerSight Manager (PSM) software for your PC may require the latest version of firmware in the PowerSight to allow you to use new features we have added to PSM, so it's a good idea to make sure your firmware is current. The most recent PSM software is available for download from our web site at:

<http://www.powersight.com/downloads/index.cfm?list=Software>

Protect Your Investment

We want you to get the most out of your PowerSight and keep it in top operating condition, so we invite you take advantage of this great program.

Convenient Forms for Ordering and Return.

Select and complete the particular order form for your meter below and indicate your choice of extended warranty and return the form by fax or email.

We're here to answer any questions too, so feel welcome to call or email me.

Sincerely,

Erin Halling

Summit Technology, Inc. Warranty and Repair Price List July 2007

Model #	Description	Price
---------	-------------	-------

Model #	Description	Price
Extended Warranties		
For PowerSight meters still covered by a new or extended warranty.		
Standard warranty is for 12 months from date of purchase. Repairs are on a return to factory basis. RMA # is required, call us before sending. To maintain your warranty coverage beyond 12 months you can choose to extend your warranty coverage by purchasing additional 1 or 2 years extended warranty. Extended warranties can be renewed at any time provided the PowerSight meter is still under a warranty. Extended warranty includes free software and firmware upgrades (*note exceptions below to older PS3000 systems), one free calibration per year, and repair of equipment and accessories due to reasonable wear and tear.		
WAR1	1 Year Extended Warranty for PS250/PS3000 adds 12 additional months warranty.	\$ 195
WAR2	2 Year Extended Warranty for PS250/PS3000 adds 24 additional months warranty.	\$ 295
WAR41	1 Year Extended Warranty for PS4000/PS4500 adds 12 additional months warranty.	\$ 295
WAR42	2 Year Extended Warranty for PS4000/PS4500 adds 24 additional months warranty.	\$ 495
Renewal Warranties		
For PowerSight meters whose warranty has lapsed.		
You can reinstate your warranty coverage if your warranty has expired by purchasing additional 1 or 2 years renewal warranties. Each renewal warranty includes free software and firmware upgrades (*note exceptions below to older PS3000 systems), one free calibration per year, and repair of equipment and accessories due to reasonable wear and tear.		
RWAR1	1 Year Renewal Warranty for PS250/PS3000 reinstates warranty for 12 months.	\$ 295
RWAR2	2 Year Renewal Warranty for PS250/PS3000 reinstates warranty for 24 months.	\$ 395
RWAR3	3 Year Renewal Warranty for PS250/PS3000 reinstates warranty for 36 months.	\$ 495
RWAR41	1 Year Renewal Warranty for PS4000/PS4500 reinstates warranty for 12 months.	\$ 395
RWAR42	2 Year Renewal Warranty for PS4000/PS4500 reinstates warranty for 24 months.	\$ 595
