

Get a Good Grip on Your Voltage Connections with our New Jumbo Clip!

When making voltage connections you really need a to get a substantial hold onto lugs, bolts, conductors with an alligator clip that just won't let go. We know that sometimes wimpy clips just won't do! So we're introducing a new "Jumbo" alligator clip that has an excellent grasp of the situation.

These fully insulated extra-large alligator clips meet IEC61010 safety standards and come with a 4mm jack that connects to your PowerSight voltage leads. The serious-looking serrated jaw opens to 1.26" (32mm). Here's a picture:

A set of four clips (3 red, 1 black) is \$ 75 use part # VJClip plus \$ 5 shipping and handling.

To order, just fill in the following form and fax to 408 844 8502 or mail it back to sales@powersight.com or call us at 925 944 1212.
